

ENERGY SAVING WORKSHOP WITH BILL READING: WEBINAR

In Collaboration with Kambo Energy Group

Tuesday, October 6, 2026 | 11:00 a.m. – 12:30 p.m.

This workshop is designed to help participants understand how they can reduce energy use at home and save money on their monthly utility bills. Through practical information and easy-to-apply tips, attendees will learn how to use energy more efficiently and sustainably. It's a great opportunity to gain useful knowledge that benefits both your household and the environment.

What Participants Will Learn:

- How to identify habits that increase energy consumption
- Practical tips for saving energy at home
- Simple ways to reduce utility costs
- Available resources and programs that support energy efficiency
